AP Biology Reading Guide Julia Keller 12d Fred and Theresa Holtzclaw Chapter 40: Basic Principles of Animal Form and Function 1. Explain how amoebas, hydras, tapeworms, and whales exchange materials with their environment. Exchange occurs as substances dissolved in an aqueous solution move across the plasma membrane of each cell. ...Start studying AP Biology: Chapter 41 (Animal Nutrition). Learn vocabulary, terms, and more with flashcards, games, and other study tools. When asked "Why do animals eat?" you might answer something like "in order to live." However, this would not be a college-level response, so carefully read the first two paragraphs of this concept to pull out what animals must obtain from the food they eat.
