CHALLENGER II—SECTION 1- Tail section (Empennage) We supply a 'Heat Shrinkable Dacron' material to cover the tail section. It is lightweight at 1.8oz per sq yard and has a tight weave. Using heavier fabric requires extreme care to avoid distorting airframe members when shrinking, and does not have the fine finish as offered by the

Can I put a 582 or a 912 in My Challenger? I have a friend who is going to put a jet engine in his Challenger. He is doing that not because he wants to go fast, but because he has so many options (weight) that he figures he will probably need it to get off the ground! Seriously, the 503 is sufficient power for a 2 seat Challenger.
