Materials Physical & Chemical Properties vs Physical & Chemical Changes Foldable Notes - (link) Reinforcement page (pdf) Glue Scissors How to use the foldable: This activity can be done with or without a partner Cut the tabs on the dotted guide lines, but do not fold yet, instead keep the paper flat Page 3 of the document...

Physical and Chemical Changes Foldable: I provide each student with a Physical Change vs Chemical Change Foldable that is already folded trifold for them, and ask them to glue it into their science notebook. Foldables that can be glued into their science notebooks are a great tool because it provides them with a resource that is interactive to help them review and study throughout the year. This Introduction to Physical and Chemical Changes Worksheet was designed for middle school students just learning about chemical and physical changes. This double-sided worksheet features a helpful overview at the top, which students can refer back to while they're working if they need help.
