

Download Christie Cp2000 Zx Manual

Christie's CP2000 Series projectors are the most deployed Digital Cinema projection solution in the world. Designed for exhibitors, the CP Series delivers high performance projection for a variety of screen sizes with a flexible design to accommodate future upgrades and reduce the cost of ownership. CP2000-ZX offers stunning wide screen high-resolution cinema images that remain flawless from first release to final show. CP2000-ZX interfaces with local networks typical in theatres throughout the world, and can be expanded even further by connecting non-cinema DVI source material for multimedia presentations from a variety of formats. Christie CP2000-ZX Pdf User Manuals. View online or download Christie CP2000-ZX Setup Manual CP2000-ZX Setup Guide 1-3 020-100098-04 Rev. 1 (06-2009) 1.3 How the Projector Works The CP2000-ZX accepts a variety of cinema or DVI-compatible "non-cinema" signals for projection on front screens typical in commercial theatre or other large screen applications. High-brightness light is generated by a
