Laid by a swan floating on the waters of chaos Many varieties of eggs, whether laid by chickens, geese, ducks, fish, ostriches or even alligators, have been eaten throughout history, and today hens' eggs are an integral part of modern cuisine around the world. Eggs are now marketed as a health food, but there have been debates over their nutritional status. Today, the United States is the world's leading producer of corn, and you can find more than 3,500 items in grocery stores that contain corn in one way or another—from puddings to soups, margarine to mayonnaise. In Corn: A Global History, Michael Owen Jones explores the origins of this humble but irreplaceable crop.
