TEA has released several clusters of sample test questions. These clusters are made up of actual test questions released from the STAAR Alternate 2 test banks and are representative of the types of questions that will appear on STAAR Alternate 2 test forms. These Frequently Asked Questions (FAQs) are based on the knowledge and experience of the developers and practitioners of the Highway Safety Manual, as well as various publications and websites, including the Highway Safety Manual discussion forum, the Federal Highway Administration's Crash Modification Factor Clearinghouse, and more. Overview The Performance Based Monitoring Analysis System (PBMAS) Manuals are comprehensive technical resources designed to explain each year's PBMAS indicators and reports. The PBMAS is used by the Texas Education Agency as part of its overall evaluation of school district performance and program effectiveness. The construction industry is a high risk industry for vibration related ill health. The main risk is from the use of hand held vibrating tools such as breakers, hammer drills / combihammers or scabblers.
