Skeleton Tutorial -- learn about the different bones in a human skeleton! Skeleton Game Level 1: Fun flash game to teach you about the bones in your body! Tibula, fibular, and vertebrae: The skeletal bones might not be unbreakable, but they sure keep us connected! No ribbing, you can learn about your skeletal system in this movie. The human skeleton is the internal framework of the body. It is composed of around 270 bones at birth – this total decreases to around 206 bones by adulthood after some bones get fused together. The bone mass in the skeleton reaches maximum density around age 21. The human skeleton can be divided into the axial skeleton and the appendicular skeleton. The axial skeleton is formed by the ...
